

Year 11 GCSE Geography Revision & Intervention Schedule Paper 2

This revision schedule will help you to revise and prepare for your GCSE exams. Complete the activities each week to help guide your revision. **You must first join the GCSE Geography revision google classroom to access the resources: 7cjinb3**

It is also worth signing up to Quizlet (if you haven't already!) it is free and a great resource for keywords

Date (Week beginning)	Revision at home	Resources to support with this
23/02/25	<p>Resource Management - UK overview</p> <p>Use a revision clock (either from the google classroom or ask your teacher) to go over the following subtopics (the point is to spend 5 minutes on each question):</p> <ul style="list-style-type: none"> - why are there global inequalities in resource supply and consumption? - why does the UK have an increasing demand for high value food from LICs? - What are food miles and how does this affect our carbon footprint? - why is the UK moving towards agribusiness? - why is there a changing demand for water in the UK? - what factors affect water quality? - how is water pollution managed? - in the UK, which areas have a water deficit and which have a water surplus? - Why we do need to transfer water in the UK? Can you name a scheme that is being used for this? - How is the UK energy mix changing? Why are moving from fossil fuels to renewable energy? - Why does the UK have a decreasing amount of coal, oil and gas? - What are the economic and environmental issues associated with the exploitation of energy sources? 	<p>https://docs.google.com/document/d/1VHp4kCUv7RvT3B26e_0UvoGxptkvezC5xJ2N9DMkKwg/edit#heading=h.gjdgxs < Revision clock if required</p> <p>https://www.bbc.co.uk/bitesize/guides/zywpg82/revision/2 < only first 2 pages!</p> <p>https://www.youtube.com/watch?v=mSIQ6KTJBQ < general overview of resource management (less than 2 mins!)</p> <p>Describe and explain the global inequality in the supply of water (6)</p> <p>Explain the UK's attempts to respond to the changing demands for food (4)</p> <p>Explain why the UK's energy mix will include both renewable and non-renewable sources in the future (6)</p>

<p>2/03/25</p>	<p>Resource Management - Water</p> <ol style="list-style-type: none"> 1. Complete the Water resource management Geog Your Memory. Complete all the boxes, making sure you push yourself as needed 2. Kielder Water - create a spider diagram showing why it was needed, what the impacts were (classify further into social, economic and environmental) 3. Create a Frayer Model to show your case study of the China SNWTP. 4. Hitosa Case Study Create a T-Chart showing the social, economic and environmental impacts of your local water improvement scheme in Hitosa, Ethiopia. Push yourself and colour code these into positives and negatives 5. Define the key words: Water stress; water security, water surplus, water deficit 6. What is the global pattern of supply and demand globally for water? Why is it uneven? 	<p>https://docs.google.com/document/d/16RgMXd6Ky_3WPHooc7jgpfghD9KDn5ApT/edit < GYM</p> <p>https://docs.google.com/document/d/1CKj77GHOC_XIHaDSs6QwZeJ9BoC7lw2rKNLOqBT0ju88/edit < China SNWTP frayer model</p> <p>https://www.bbc.co.uk/bitesize/guides/zgx382p/re_vision/4 > Kielder Water</p> <p>https://www.coolgeography.co.uk/gcsen/CRM_Water_LIC_Hitosa.php < Hitosa, Ethiopia</p> <p>https://www.youtube.com/watch?v=5SUC4-Yhr_uU < China SNWTP</p> <p>Evaluate the issue of large-scale water transfer schemes in the UK (6)</p>
<p>9/03/25</p>	<p>CHANGING ECONOMIC WORLD</p> <ol style="list-style-type: none"> 1. Create Flashcards on the different ways to measure development e.g. Birth Rate, HDI, GNI, life expectancy, literacy rate, infant mortality rate, death rate, people per doctor, GDP 2. Draw your own version of the Demographic Transition Model (DTM) a. Annotate it to show reasons for changes (what's happening at each stage) <ol style="list-style-type: none"> b. Link this to population pyramids. i.e. draw a population pyramid to show what each stage would look like 3. The Development Gap. <ol style="list-style-type: none"> a. Write a definition of the Development Gap. b. Learn it- read, cover, revise. 	<p>https://www.bbc.co.uk/bitesize/guides/z838xsg/re_vision/2 < Indicators and definitions & DTM</p> <p>https://quizlet.com/6017105/gcse-development-in_dicators-flash-cards/ < indicators of development</p> <p>https://www.bbc.co.uk/bitesize/guides/zwhgwxs/re_vision/1 < the development gap</p> <p>To what extent is HDI the most effective measure</p>

		<p>of development? (6)</p> <p>Use a range of development indicators to explain the difference between standard of living and quality of life (6)</p> <p>Evaluate how far economic development can be linked to the DTM (6)</p> <p>Compare the population structure of an LIC to that of an HIC (4)</p>
--	--	--

<p>16/03/25</p>	<p>CHANGING ECONOMIC WORLD</p> <p>1. Causes of Uneven Development:</p> <ol style="list-style-type: none"> a. Rank the causes of uneven development from most important to least in your opinion. b. Choose a social, economic, environmental, political and historical reason for there being a development gap. These should be the ones that you think are most important c. JUST A MINUTE- try to talk about these causes for one minute without hesitation, deviation or repetition. Keep trying till you confidently and accurately achieve the minute. d. Test yourself by coming up with 10 true/false statements about the causes. <p>2. Consequences of uneven development.</p> <ol style="list-style-type: none"> a. What are the consequences? Categorise them into social, economic. 	<p>https://www.coolgeography.co.uk/gcsen/EW Causes Uneven development.php < this is great! It has got information and videos on about the development gap so pick something that best helps you revise!</p> <p>Explain the link between trade and the development gap (6)</p> <p>How does uneven development lead to disparities of global wealth? (4)</p> <p>How does uneven development lead to international migration? (4)</p>
