What does the course involve?

In choosing to follow a BTEC course in Digital Media production you are electing to delve into the world of media, considering its power and influence on the world we live in.

You will learn all about the different media industries, including radio, advertising, film and gaming. By the end of the course you will be able to discuss how different industries work and how they target their audiences and utilise digital technologies to enhance their success. You will also understand the finer details of media products, including financing and regulation.

As well as learning about how existing media industries tick, you will spend a lot of time developing and applying your own creative and technical skills. The course requires you to plan and pitch your own ideas for products as well as then going on to create them using our many amazing resources!
