

Please see below an opportunity from Eedi

Hello everyone,

I hope you are all well.

Following the recent success of our Maths Anxiety webinar (over 1500 showed interest!), I want to tell you about our next free webinar for parents created by my fantastic colleague, Rachel (Maths Author and Educational Psychology Lead at Eedi).

**Top Tips On Motivation and Goal Setting with your Child**

*15th December at 7:30pm* [Sign up link](#)

With the new year approaching, setting goals is important as it helps to give students motivation and vision. It focuses their mind, and helps them to organise their time and resources so that they can achieve great things.

In the session, Rachel will discuss hot topics such as intrinsic motivation, whether we should use rewards and sanctions, habit stacking and the dreaded question "When will I ever need this in real life..."

The session will be jam-packed with useful takeaways for you to try out at home and hopefully start the new year with a bang!

**Please feel free to pass on this link if you think your parent network might be interested!**
