1	This service is to request a copy of a script as a priority to decide whether or not to request a clerical check or a review of marking.
2	This service checks that all clerical procedures leading to the issue of a result, including; that all parts of the script have been marked and that the total and recording of marks, are correct.
3	This service ensures that the agreed mark scheme has been applied correctly. It is not a re-mark but acts to correct any errors identified in the original marking. Service R1 is included within this service.
4	This service is advisable if you have a university place pending which is grade dependant.
