

Science

Core knowledge and skills you will need for September

[SENECA Learning](#)

A sound understanding of the 3 GCSE topics drawn down into Year 9, which all students are being taught:

1. Cells (Biology) - currently being taught
2. Particle Model (Physics) - currently being taught
3. Atomic Structure (Chemistry) - due to start teaching soon

If a student is planning to sit Triple, they we need to ensure they also have a good understanding of:

1. Pressure in gases (Triple only content in Physics)
2. Transition metals (Triple only content in Chemistry)
